**Fiscal Note**  
**Bill Number HB0006**

**Funding for Capital Improvement Projects**

*12-Jan-00*

*6:00 PM*

---

---

Passage of this bill will increase the level of Capital Improvement projects that must be funded before any Capital Development projects can be funded. If funding required by this bill comes from the base budget for Capital projects no new appropriation will be required. However, there would be approximately \$4.1 million less available in FY 2001 to fund new facilities after the Capital Improvement requirement is met.
